DEUS[®]

DEUS V5

PERFORMANCE - VERSATILITY - ERGONOMICS

A TECHNOLOGICAL BREAKTHROUGH !

Deus marks a technological breakthrough and is a real innovation in metal detector design. Its patented design is based on three elements: A Coil, a Remote Control and a set of Audio Headphones, which are unique in that they communicate with each other via a digital radio link. Through the incorporation of cutting-edge technologies, DEUS delivers power, speed and precision, all in a lightweight and compact design. The search coil contains the essential components for processing the signals, which no longer need to be conveyed via a wire link. The signal is digitized and analysed directly at the source by an ultra-miniature digital circuit, this greatly improves the quality of signal acquisition.

DEEPER & FASTER !

- Many advanced features.
- Large frequency choices and settings.

LIGHTER, MORE COMPACT !

- Ultra light detector: 900g full (800g without remote).
- Pocket size remote control.
- Double D coil, light and waterproof.
- Wireless headphones, with their own operational controls.
- Lithium Battery

HEADPHONES & DEUS CONTROLLER*

* without remote control DEUS

WS4

WS5

SWITCH OFF THE REMOTE CONTROL ...
DEUS CONTINUES TO WORK !

In the absence of the remote control, the headphones enable you to control the detector!

	General use - Big and small targets - All terrain										Gold prospecting Mineralised ground			
Suggested uses	General use - Big and small targets - All terrain												Gold prospecting Mineralised ground	
CONFIGURATIONS														
• Coil	22 cm - 9"	28 cm - 11"	22 cm - 9"	28 cm - 11"	22 cm - 9"	28 cm - 11"	22 cm - 9"	28 cm - 11"	22 cm - 9"	28 cm - 11"	24x13 cm	22 cm		
• Remote Control														
• Wireless headphones		WS4		WS5				WS4		WS5		WS4		
FUNCTIONS														
• Discrimination														
• Sensitivity														
• Ground balance / Tracking / Pumping mode														
• 1 to 5 Tones + Pitch + Full Tones														
• Multi-tones, expert mode, fully adjustable														
• Frequency	35 FREQUENCIES										21 FREQUENCIES			
• Freq. shift	3.7 to 27.7 kHz										13 to 81 kHz 13 to 59 kHz			
• 10 factory programs + 8 user														
• Reactivity														
• Pinpoint / 4 non-motion modes														
• Iron level														
• Notch / Multi-Notch														
• Notch ground														
• Tx Power														
• Silencer														
• Audio Response														
• Beach programs														
• ID Norm	ON / OFF		ON / OFF		ON / OFF			ON		ON		OFF		
• USB / Update								VIA REMOTE CONTROL						
• Control DEUS with the wireless headphone														
• Lithium Battery	RC/WS4: 27H - Coil: 15 H		RC/W55: 27H - Coil: 15 H		RC: 27H - Coil: 15 H		WS4: 27H - Coil: 15 H		WS5: 27H - Coil: 15 H		RC/WS4: 27H - Coil: 24H
